Bully ?

We simply broke up because we weren't getting along.

It has nothing to do with bullying.

Really? Because I could see that it was an one-sided inferiority complex.

54.

Are you listening ?

Yes.., yes I am !

You came quiet all of a sudden, so ...

What exactly happened between you and Park Yuri?

Me and her ?

Yeah... You two don't seem to get along.

True ...

We used to be okay ...

Well, it was more like she was pulling strings and I was simply riding the flow.

She and I ... happened to spend lots of time together but I don't think we were clicking.

Damn it ! I am going to skip the class. The seniors know I am not taking it seriously and are picking on me.

I don't want to confront them.

Hye-Ri, come with me. Skip the class.

I can't skip the class ...

Once is fine !

S, still ...

Aren't you a little naive ?

What ... ?

Nevermind.

sigh

It's hard for me to speak to the others since I've been hanging out with Yuri ...

Hye-Ri !

Y, yeah ?

Why do you look so surprised?

What ... is it ?

Nothing. We just wanted to talk to you.

?

If only I skip, that will be worse ...

I guess I will just check in.

Must be a cheap copy.

Must be. How much is it exactly anyway ?

Hang on. I am searching.

Holy shit ! It's really over a grand !

I don't think I've seen copies of these.

Hye-Ri's family must be rich.

I have an inferiority complex against Hye-Ri ?

That's not even funny. What makes you think so ?

Did I sound a little too assertive ? I am sorry.

But it shows off.

It looked fairly obvious to me from a stranger point of view.

Yuri, did you get a new bag ?

Yeah, it was a birthday present.

Aw, I wanted this bag.

Nice color.

Speaking of which, Hye-Ri's bag is pretty !

The blue one ? It looked awfully expensive.

Isn't it from OO ?

For real ?! It must have cost grands !
